Kennewick, Washington 99336-6018

Dear Messrs. Sherwood and Skinnarland:

TRANSMITTAL OF TEST PLAN FOR THE FY 1997 REBOUND STUDY AT THE CARBON
TETRACHLORIDE SOIL VAPOR EXTRACTION SITE, BHI-00947, REV. 0

Attached for your information is the subject document. The test plan describes the objectives and strategy developed to evaluate the potential rebound of carbon tetrachloride vapor concentrations during the shut down of the soil vapor extraction systems from November 4, 1996 through April 30, 1997. In addition, attached are meeting minutes documenting the Data Quality Objective (DQO) process for developing this test plan. The test plan was finalized based on comments from the U.S. Environmental Protection Agency provided during the DQO meeting on October 31, 1996, on the draft version of the document.

If you have any questions or need additional information, please contact me at 373-9631.

Sincerely,

Arlene C. Tortoso
Arlene C. Tortoso, Project Manager
Groundwater Project
